

THUMBNAIL BLASTER

REVIEWED

by: Arunas Bruzas

What is Thumbnail Blaster?

Thumbnail Blaster is a cloud-based thumbnail creation app with which you can create attention-grabbing thumbnails in 3 easy Clicks.

Being the world's only A.I. thumbnail creation app, it stands out in the creation of thumbnails for YouTube, Facebook, Instagram or any video platform out there!

WHO IS IT FOR?

Thumbnail Blaster helps to create personalized thumbnails without you having to put in lots of effort and time.

YouTube marketers that churn out lots of videos and don't have the time to design thumbnails will find this software really useful. But not only them. Even local businesses can make use of it, and due to its simplicity, they can easily generate amazing results through the thumbnails they create.

Thumbnail Blaster is all about creating visually appealing thumbnails that can catalyze digital virality and generate lots of engagements for video content. That said, any of the following professionals can use the product:

Email Marketers

Social Media Marketers

Designers

SEO marketers

EXAMPLES

THUMBNAIL BLASTER BENEFITS

Thumbnail Blaster is rated as one of the best thumbnail creation tools there is, and below are some of the reasons why:

Flexible

With Thumbnail Blaster, you have so much liberty that you can drag and drop virtually anything. You can change the color, size and font of texts, easily adjust your layout, and insert new elements with a single click. Suffice it to say the possibilities are endless!

Publish Directly to Youtube

With most tools, you must first create your thumbnail then login to YouTube and have it published. This isn't so with Thumbnail Blaster. With as simple as the push of a button, you can have the thumbnail you created instantly published to YouTube.

Easy to Use

Without prior knowledge or expertise in using tools like Photoshop or Corel Draw, you can create stunning thumbnails using Thumbnail Blaster. The tool is well structured, and anyone can find their way around it with zero assistance.

Countless Design Elements

Thumbnail Blaster has a huge library of visual elements including photos, infographics, etc. This saves you the extra cost of purchasing stock photos and elements elsewhere.

100+ Templates

Alongside the visual elements available, there are also more than 100 templates you can pick from to give your design process a huge head start.

Thumbnail Blaster FEATURES

Thumbnail Blaster is well known because the software isn't just easy to use, but because it has features that can actually produce the kind of thumbnails that generate traffic.

Image Filters

Just like with advanced tools like Photoshop, Thumbnail Blaster's Image Filter lets you adjust images to your taste. You can change their hue, brightness, transparency, and so much more. With these filters, you could do as much as pixelate or blur an image.

Template Editing

After you pick the template you desire from Thumbnail Blaster's huge library, you can go ahead to edit the template to suit your specific needs. There are countless design elements and tools present that will come in handy in your editing process. And with the drag and drop feature mentioned above, you can add in personalized images. Even more, you can go with the option of allowing its AI to help you personalize the template you've chosen.

Unlimited Creation

Upon the purchase of the software, you can create as many thumbnails as you want. If you are a content creator, Thumbnail Blaster's unlimited-thumbnail-creation feature will serve you well as you get to be able to create as many thumbnails as your job requires.

UNIQUE FEATURES

If it were just up to generic features, then Thumbnail Blaster wouldn't stand out among comparable software. Below are unique features that it possesses that even the most expensive thumbnail creators on the market don't have.

Artificial Intelligence image analyzer

This feature allows you to upload your thumbnails directly from your computer instantaneously. This can be done through the image link or you could also use the YouTube video link. The AI is also what analyzes all that is needed for your thumbnail.

Split Test

Split Test is one of the most standout features of Thumbnail Blaster. It enables you to make a test amid 2 thumbnails for each video. What it does is change the thumbnail then keep track for you. By doing this, you can easily choose the thumbnail with the best results. Once you pick your YouTube channel and click 'Change thumbnail A/B,' the software kicks off the split test.

Automatic creation

This one-of-a-kind automation feature makes it possible for you to spawn about three times the amount of traffic you'd normally generate to your video content. Thumbnail Blaster's automatic creation feature consequently gets you more leads by generating you immense traffic.

PROS & CONS

Pros

- ✓ 100% cloud-based
- ✓ High-quality thumbnails
- ✓ Integrated with artificial intelligence
- ✓ Drag and drop feature
- ✓ Swift and easy
- ✓ Extensive graphics library
- ✓ Inexpensive
- ✓ Available Online
- ✓ Split testing feature

Cons

- ✗ Internet connection required
- ✗ Only thumbnails can be created

OUR TESTIMONIALS

Thumbnail Blaster is the easiest software I ever purchased. Before I purchase this stunning software, I was learning to create thumbnail manually which took me almost two hours to create one simple thumbnail and it was a time-consuming job. But the moment I purchased Thumbnail Blaster, all the headache disappeared.

Temba

Blastersuite.com team did it again. I have been using there thumbnail blaster to advertise on google and YouTube. The application has given me really high rankings and high views. The best part is I can also use my new thumbnails for any social media website...

John

I love Thumbnail Blaster. I think the software is easy to use, and using it is a must. You need a flashy thumbnail to get attention, to stand out from the crowd, which is exactly what Thumbnail Blaster does so well. Using it, my videos get more clicks. What more could I want? I have seen other tools and I still think Thumbnail Blaster is the best.

Jonny

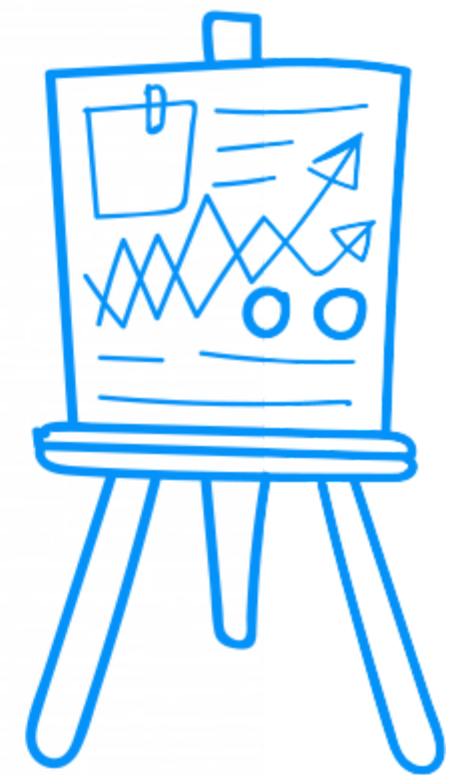

SUMMARY

Thumbnail Blaster is a must-have for YouTube content creators, Digital Marketers and others in a similar niche because of its versatility and ability to create stunning thumbnails. The A.I, drag and drop feature, 100+ templates and numerous other features are major reasons it stands out among its peers.

The software doesn't just allow you to create thumbnails for your videos, but it also has platforms like YouTube and Vimeo integrated into it. This makes room for seamless and swift publishing.

To top it all off, Thumbnail Blaster offers a 60-day money-back guarantee, so you can rest assured to have your money refunded if it so happens that you don't get the value for your money.

OUR VERDICT

4.6
OUT OF
5

Many digital marketers and YouTubers just don't have the skill or time to create thumbnails for themselves and Thumbnail Blaster has long been their solution.

Since thumbnails are very important and often serve as the thin line between a video getting huge engagements or not, then investing in software like this with a proven track record is what we highly recommend.
